We do not have responsibility with missing file of this book.

An Antarctic research team hoping to study microbial organisms in an underground lake discovers something far more amazing: perfectly preserved dinosaur corpses. After one thaws and wakes ravenously hungry, it becomes apparent that death, like life, will find a way. Environmental activist Alex Ramirez, son of the expedition's paleontologist, came to Antarctica to defend the organisms from extinction, but soon learns that it is the human race that needs protecting.
